Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 18 July 2005.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

Current Status

1. Claims 1-47 are pending in the application.

Lack of Unity

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1. Claims 1-26, 36 and 43-47, drawn to compound of formula 1, its pharmaceutical composition and a method of treatment with the same, classified in class 530, subclass 410+.

Group 2. Claims 27, 30 and 37-40, drawn to compounds of formulas 2 and 5, and compounds 1-4, classified in class 568, subclass 662+.

Group 2. Claims 28, 29 and 31 drawn to compounds of formulas 3, 4 and 6, classified in class 568, subclass 662+.

Group 3. Claim 32 drawn to compound of formula 7, classified in class 568, subclass 662+.

Group 4. Claim 33 drawn to compound of formula 8, classified in class 568, subclass 662+.

Group 5. Claims 34, 35, 41 and 42 drawn to compounds of formula 9, compound 5 and compound 6 classified in class 568, subclass 662+.

The inventions listed as Group 1 - Group 5 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group 1 is drawn to a compound of formula 1, its pharmaceutical composition and a method of treatment with the same while Groups 2-5 are drawn to different compounds. These five groups of invention are different from each other. Therefore, there is no special technical feature for the compounds, the processes of making these compounds or the different fields of application of the compounds. Also there is no unity of invention.

There is no special technical feature, which unites the groups. But even if there were a special technical feature there must be unity of invention also. Under 37 CFR 1.475

(a) An international and a national stage application shall relate to one invention only or to a group of inventions so linked as to form a single general inventive concept ("requirement of unity of invention"). Where a group of inventions is claimed in an application, the requirement of unity of invention shall be fulfilled only when there is a technical relationship among those inventions involving one or more of the same or corresponding special technical features. The expression "special technical features" shall mean those technical features that define a contribution which each of the claimed inventions, considered as a whole, makes over the prior art.

(b) An international or a national stage application containing claims to different categories of invention will be considered to have unity of invention if the claims are drawn only to one of the following combinations of categories:

Art Unit: 1621

- (1) A product and a process specially adapted for the manufacture of said product;
or
- (2) A product and a process of use of said product; or
- (3) A product, a process specially adapted for the manufacture of the said product,
and a use of the said product; or
- (4) A process and an apparatus or means specifically designed for carrying out the
said process; or
- (5) A product, a process specially adapted for the manufacture of the said product,
and an apparatus or means specifically designed for carrying out the said process.

The above groups 1-5 together do not meet the requirement of unity of invention as
given above in (1) -(5).

A telephone call was made to Marianne Fuierer on 1/17/07 to request an oral
election to the above restriction requirement, but did not result in an election being
made.

Any inquiry concerning this communication or earlier communications from the
examiner should be directed to Chukwuma O. Nwaonicha whose telephone number is
